

Success Story

Dr. Jang Jin Seok, Veterinarian at Kangneong Animal Hospital

Dr. Jang Jin Seok transformed urinalysis in his veterinary practice with the anvajo fluidlab 1, addressing the challenges of traditional methods that were time-consuming and often confusing for pet owners.

Key Case: Chihuahua with Urination Issues

- **Patient:** A 2kg male Chihuahua, experiencing discomfort and difficulty urinating.
- **Challenge:** Obtaining a sufficient urine sample for analysis was difficult due to the dog's size.

Solution: Anvajo Fluidlab 1

- **Sample Requirement:** Only one drop of urine needed for comprehensive analysis.
- **Results:** Quick, clear visual output that facilitated easy interpretation.

Diagnosis and Treatment

- **Diagnosis:** Urinary stones, confirmed through fluidlab 1 results and X-ray imaging.
- **Action Taken:** Surgical removal of stones and dietary recommendations.

Impact on Practice

1. Enhanced diagnostic accuracy and reduced misdiagnosis rates.
2. Improved client communication and satisfaction through visual explanations.
3. Increased clinic efficiency, allowing Dr. Jang to see more patients and generate additional revenue from urinalysis tests.

Dr. Jang is now an enthusiastic advocate for the fluidlab 1, highlighting its ease of use and positive impact on both veterinary care and client relations.
